411.6	18.0	2.3	12.8	100	14 Mths	TW 220F

Australian Champion Ewe Hogget at the Hay Show in June 2017. At 85kg with lambs teeth TW411.6 was described by the judges as the stand out in a long line up of young ewes.

TW411.6 demonstrates the great growth rate in our lambs so important in the wether lamb trade.

It's been wonderful to have so many clients reporting record prices for their wether lambs both in the fat market and over the hooks.
